

Bingo Caller's Card

food	pollination	waste decomposition	erosion control	water purification
medicinal resources	habitat for other species	eco-tourism	spiritual/religious purpose	raw materials
carbon sequestration	energy	air quality	climate control	genetic diversity
mental health	biological control (pest/diseases)			

Ecological Services

water purification	habitat for other species	pollination	waste decomposition
energy	erosion control	raw materials	eco- tourism
biological control (pest/ diseases)	spiritual/ religious purpose	food	mental health
genetic diversity	climate control	medicinal resources	carbon sequestration

Ecological Services

carbon sequestration	energy	pollination	waste decomposition
medicinal resources	water purification	spiritual/ religious purpose	eco- tourism
erosion control	biological control (pest/ diseases)	genetic diversity	mental health
air quality	habitat for other species	food	climate control

Ecological Services

water purification	raw materials	genetic diversity	medicinal resources
erosion control	energy	climate control	habitat for other species
eco- tourism	biological control (pest/ diseases)	mental health	carbon sequestration
food	pollination	waste decomposition	air quality

Ecological Services

spiritual/ religious purpose	habitat for other species	mental health	energy
carbon sequestration	raw materials	erosion control	biological control (pest/ diseases)
water purification	food	air quality	genetic diversity
waste decomposition	pollination	medicinal resources	eco- tourism

Ecological Services

pollination	eco- tourism	raw materials	spiritual/ religious purpose
biological control (pest/ diseases)	waste decomposition	erosion control	climate control
genetic diversity	energy	habitat for other species	medicinal resources
water purification	carbon sequestration	mental health	air quality

Ecological Services

pollination	eco- tourism	air quality	erosion control
genetic diversity	biological control (pest/ diseases)	water purification	carbon sequestration
medicinal resources	mental health	energy	climate control
habitat for other species	spiritual/ religious purpose	food	raw materials

Ecological Services

pollination	carbon sequestration	climate control	energy
water purification	erosion control	raw materials	spiritual/ religious purpose
air quality	waste decomposition	mental health	genetic diversity
habitat for other species	medicinal resources	eco- tourism	biological control (pest/ diseases)

Ecological Services

climate control	waste decomposition	water purification	food
energy	mental health	spiritual/ religious purpose	erosion control
biological control (pest/ diseases)	medicinal resources	pollination	raw materials
habitat for other species	air quality	eco- tourism	carbon sequestration

Ecological Services

genetic diversity	medicinal resources	air quality	climate control
biological control (pest/ diseases)	pollination	eco- tourism	spiritual/ religious purpose
energy	erosion control	carbon sequestration	mental health
waste decomposition	food	habitat for other species	water purification

Ecological Services

genetic diversity	raw materials	habitat for other species	biological control (pest/ diseases)
mental health	eco- tourism	energy	pollination
spiritual/ religious purpose	erosion control	water purification	food
climate control	waste decomposition	medicinal resources	carbon sequestration

Ecological Services

waste decomposition	carbon sequestration	water purification	climate control
food	erosion control	biological control (pest/ diseases)	raw materials
air quality	habitat for other species	mental health	pollination
eco- tourism	medicinal resources	energy	genetic diversity

Ecological Services

carbon sequestration	biological control (pest/ diseases)	energy	spiritual/ religious purpose
genetic diversity	raw materials	food	pollination
mental health	waste decomposition	water purification	climate control
air quality	erosion control	eco- tourism	medicinal resources

Ecological Services

water purification	spiritual/ religious purpose	food	carbon sequestration
raw materials	erosion control	habitat for other species	medicinal resources
energy	mental health	biological control (pest/ diseases)	pollination
air quality	climate control	genetic diversity	eco- tourism

Ecological Services

genetic diversity	habitat for other species	eco- tourism	raw materials
climate control	energy	spiritual/ religious purpose	water purification
erosion control	food	biological control (pest/ diseases)	waste decomposition
air quality	medicinal resources	carbon sequestration	mental health

Ecological Services

habitat for other species	eco- tourism	mental health	climate control
raw materials	medicinal resources	spiritual/ religious purpose	erosion control
air quality	pollination	water purification	waste decomposition
biological control (pest/ diseases)	energy	food	carbon sequestration

Ecological Services

food	genetic diversity	pollination	water purification
carbon sequestration	raw materials	energy	biological control (pest/ diseases)
spiritual/ religious purpose	eco- tourism	medicinal resources	erosion control
air quality	climate control	habitat for other species	mental health

Ecological Services

biological control (pest/ diseases)	spiritual/ religious purpose	mental health	erosion control
raw materials	air quality	waste decomposition	pollination
water purification	habitat for other species	medicinal resources	genetic diversity
eco- tourism	food	carbon sequestration	energy

Ecological Services

pollination	spiritual/ religious purpose	eco- tourism	energy
carbon sequestration	food	genetic diversity	habitat for other species
raw materials	air quality	medicinal resources	mental health
water purification	climate control	waste decomposition	biological control (pest/ diseases)

Ecological Services

mental health	carbon sequestration	air quality	eco-tourism
raw materials	spiritual/religious purpose	waste decomposition	pollination
medicinal resources	genetic diversity	habitat for other species	erosion control
food	energy	climate control	biological control (pest/diseases)

Ecological Services

medicinal resources	erosion control	habitat for other species	climate control
mental health	genetic diversity	eco- tourism	waste decomposition
raw materials	water purification	energy	biological control (pest/ diseases)
food	pollination	air quality	spiritual/ religious purpose

Ecological Services

erosion control	raw materials	spiritual/ religious purpose	air quality
water purification	waste decomposition	food	pollination
carbon sequestration	medicinal resources	mental health	genetic diversity
climate control	energy	biological control (pest/ diseases)	eco- tourism

Ecological Services

waste decomposition	spiritual/ religious purpose	food	pollination
eco- tourism	biological control (pest/ diseases)	climate control	energy
habitat for other species	water purification	air quality	mental health
raw materials	erosion control	carbon sequestration	medicinal resources

Ecological Services

mental health	air quality	eco- tourism	habitat for other species
waste decomposition	pollination	water purification	carbon sequestration
biological control (pest/ diseases)	genetic diversity	medicinal resources	climate control
raw materials	food	energy	spiritual/ religious purpose

Ecological Services

medicinal resources	habitat for other species	air quality	water purification
climate control	genetic diversity	mental health	erosion control
food	raw materials	waste decomposition	eco- tourism
spiritual/ religious purpose	energy	biological control (pest/ diseases)	carbon sequestration

Ecological Services

erosion control	carbon sequestration	medicinal resources	waste decomposition
spiritual/ religious purpose	pollination	eco- tourism	food
raw materials	water purification	genetic diversity	mental health
air quality	climate control	habitat for other species	energy

Ecological Services

raw materials	eco- tourism	genetic diversity	climate control
mental health	habitat for other species	air quality	medicinal resources
spiritual/ religious purpose	carbon sequestration	energy	food
pollination	waste decomposition	biological control (pest/ diseases)	erosion control

Ecological Services

air quality	habitat for other species	food	erosion control
biological control (pest/ diseases)	mental health	medicinal resources	eco- tourism
water purification	climate control	pollination	waste decomposition
raw materials	spiritual/ religious purpose	carbon sequestration	genetic diversity

Ecological Services

pollination	food	raw materials	air quality
biological control (pest/ diseases)	eco- tourism	mental health	climate control
genetic diversity	waste decomposition	spiritual/ religious purpose	habitat for other species
medicinal resources	carbon sequestration	water purification	erosion control

Ecological Services

medicinal resources	water purification	erosion control	air quality
spiritual/ religious purpose	climate control	eco- tourism	habitat for other species
carbon sequestration	genetic diversity	energy	food
raw materials	biological control (pest/ diseases)	mental health	waste decomposition

Ecological Services

medicinal resources	carbon sequestration	air quality	eco- tourism
food	biological control (pest/ diseases)	climate control	mental health
raw materials	genetic diversity	spiritual/ religious purpose	erosion control
energy	waste decomposition	water purification	habitat for other species
