CPET program staff will be present at all times. The main facilitator during days is indicated on the schedule, with our student assistants helping. A student will reside in the dorm to answer questions and to manage the iPads. This student will also walk with the group to breakfast each morning, where the main facilitator will meet and take over for the day.

Student partners should collect their iPads before departing for breakfast and return it each evening to Yasmin by 10pm. iPads are to be used for work on STEM Immersion projects.
