

Summer Staff for UF's Pre-College Academic Programs

Do you enjoy sharing your passion for science, humanities, computer science/coding, or engineering?
Do you have experience or are you looking for experience in mentoring high school students?
Do you enjoy working in a dynamic environment? Are you looking to make a difference this summer?

We invite you to apply to join the UF Center for Precollegiate Education and Training Summer Staff Team!

We are looking for qualified applicants with at least two years (post-high school) college experience, recent graduates, and graduate students for the following positions:

- Two team members with experience in coding (Python, Java, or R) for Gator Computing (*June 3—June 14*), nonresidential
- One team member with experience in molecular biology research such as PCR, pipetting, gel electrophoresis (*May - July 27*), nonresidential
- One team member with research experience in environmental science, toxicology, or ecology (*early May - July 27*), nonresidential
- Four team members pursuing a major or minor in a humanities field of study for Humanities and the Sunshine State (*June 3—June 22*), partially residential
- Eight team members to serve as academic and residential counselors for the Student Science Training Program. Must be majors in STEM field and preference to program alumni (*May 20—July 29*), residential
- Five team members with strong leadership experience and academic success to work with various one and two week residential programs throughout the summer (*June 3—July 27*), partially residential

What can you get out of your UF CPET Summer Staff experience?

- Develop and strengthen your public speaking, communication, and leadership skills
- Receive training in First Aid/CPR, working with high school students, crisis management, and more
- Work in a fun and dynamic environment
- Gain professional experience working with high school students and UF faculty
- Build your resume and professional references
- Make a lasting impact on future Gators!
- Compensation begins at \$375 per week

Immediate Openings!
